

AI Strategy and Implementation

CGI Offering at a glance

AI Strategy and Implementation

Current challenge

AI is developing rapidly, its use is no longer a differentiating feature, but an operational necessity.

- Successful AI projects fail not because of technology, but because of their adoption.
- Lack of clear guardrails and roadmaps

Our approach

We accompany you on the way to an AI-supported future, no matter what stage of development you are in.

From the status quo analysis, to use case ideation, to governance, we offer E2E services and advice from our AI experts.

Your added value

Clarity and certainty about the next steps in development

- Individual use cases, roadmaps incl. suitable technology for your question
- Long-term raising of the potential of AI and thus securing competitiveness.

With our structured approaches, we work with you to develop a clear AI roadmap for your company – from the analysis of the current situation to idea generation to implementation and governance.

AI Maturity Assessment

3 building blocks to drive your AI development:

1. Understand the status quo of your organization's AI maturity
2. Identify areas for development and derive recommendations for action
3. Measuring progress and success over time

AI Governance

Rule-based and expert-led advice on:

- AI Strategy
- Regulatory & Operationalization
- Implementation & Operation

AI Use Case Ideation Workshop

Identifying, adapting and developing relevant AI use cases

Contents of the workshop:

- Inspiration
- Ideation
- Assessment & Prioritization
