CGI Offering at a glance

CGI

Cybersecurity for resilient IT

Current challenge

- Cyberattacks and regulatory requirements are constantly increasing
- Complex IT landscapes increase risks and make transparency more difficult
- Lack of security resources and shortage of skilled workers delay protective measures

Our approach

- Holistic Cybersecurity Services from Strategy to Operations
- Combination of Security Consulting, Managed Services and Incident Response
- Use of modern technologies for continuous monitoring and protection

Your added value

- Increased resilience to cyberattacks and security incidents
- Improved visibility and faster risk response
- Sustainable protection of processes, data and critical infrastructures

With CGI, you can strengthen your cybersecurity in the long term and create the basis for secure digital processes and resilient organizations.
